-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION***Election/Restrictions***

This application contains claims directed to the following patentably distinct species:

<i>Species</i>	<i>Corresponding Drawing Figure</i>
1	1
2	7

<i>Shape of Filter Species</i>	<i>Shape</i>
C	Circular
N	Non-Circular

<i>Filter Species</i>	<i>Type of Filter</i>
i	Candle
ii	Dust
iii	Cartridge

The species are independent or distinct because these species are mutually exclusive, and require different fields of search

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from each genus set forth above, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. A generic claim is one that reads on all species and sub-species. Currently, none of the claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. Such a listing will only include claims that are drawn to elected species and sub-species (if applicable). An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election. It is acknowledged that some of the

Art Unit: 1724

species set forth above may actually be a sub-species of another specie. It is assumed that Applicants intended the various recited filter types to comprise different structure. If this assumption is unwarranted, the election requirement may be re-cast (possible rejoinder) in the future. Applicants are reminded that drawings depicting all claimed subject matter will be required to the extent that they are not already depicted.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
